

# Kritik

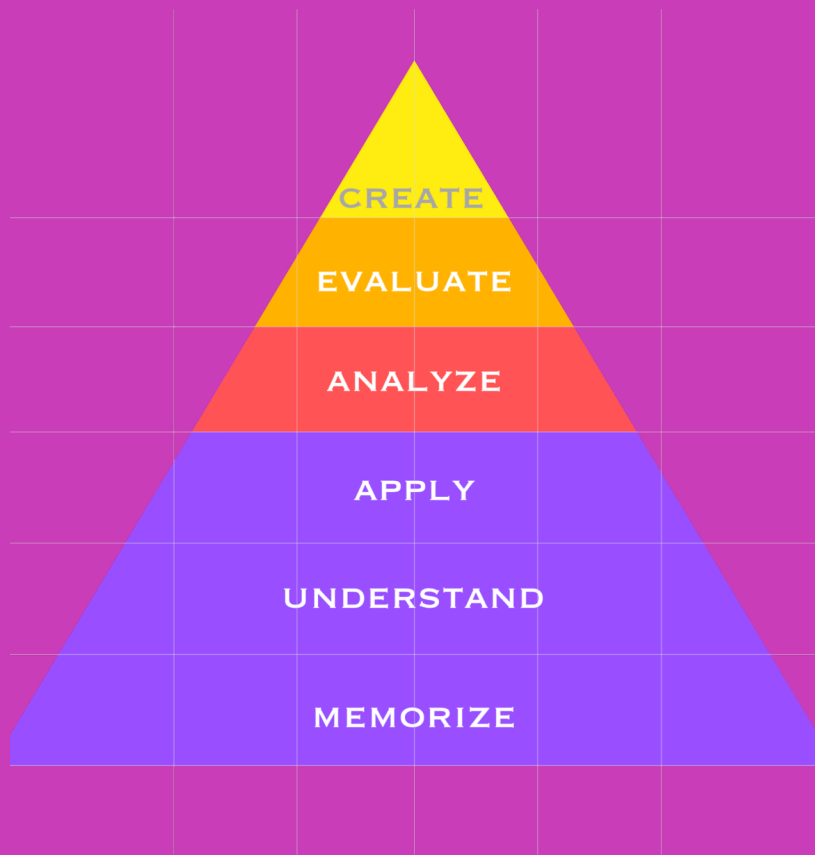

Reinvent Peer to Peer Learning

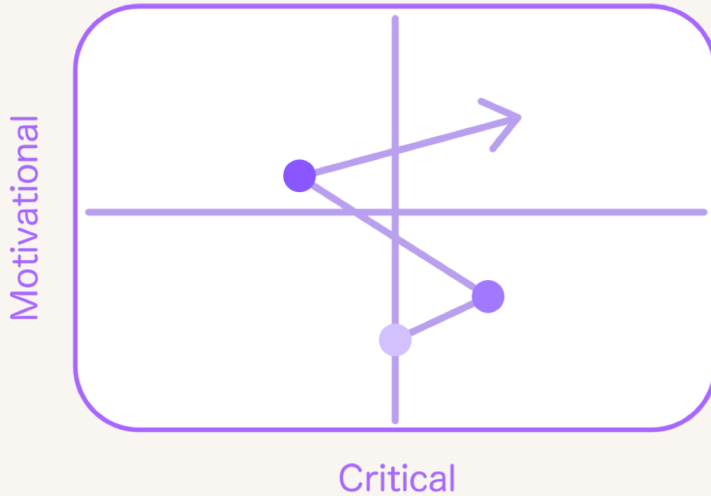

**In this course, we will be using a gamified web technology called Kritik.io!  
Your participation in Kritik will count toward your course final grades.**

# Based on the Cognitive Science of Bloom's Learning Taxonomy

Kritik helps you develop your Higher Order Thinking Skills in a fun and gamified way:

1. **Create** and Submit your assignment
2. **Analyze** your peer's submissions and **Evaluate** them based on a rubric
3. Earn a **Kritik Score** and increase your evaluation power every time you evaluate **fairly and accurately**

## Engage in a Continuous Feedback Loop

1. Rate your peer evaluators in terms of how **critical and motivational** you perceive them to be.
1. Receive data on how your peers perceive your communication tone.
1. Watch your Kritik Score and the tips provided after each cycle and aim to become the most critical and motivational you can be.

## Your Instructor and TAs will:

- Have full visibility to all activities and interactions between you and your peers at any time.
- May choose to interject, make an adjustment to grades or send a comment to you or your peer evaluators as needed
- Resolve any disputes between students.

## HOW TO SIGN-UP

- Watch your university email for an invitation email sent by your instructor from Kritik
- You must use your university email to sign up an account and enroll.

## ROUND THE CLOCK CUSTOMER SUPPORT

- Before reaching to your instructor, seek help from Kritik Support!
- When you are on the web-app, simply click on the chat button on the lower right corner
- **Kritik will answer within a few minutes during business hours**

**LOOK FOR THE LIVE CHAT BUTTON ON THE LOWER RIGHT OF ANY PAGE**
